I am an experienced Software Engineer with a demonstrated history of working in the information technology and services industry. I'm skilled in Node Js, React Js, Redux, Firebase, MongoDB, Adobe Photoshop, Figma (UI / UX) and Web Development. I am looking forward to building products that will challenge and test my competence in a way that allows me to contribute effectively while also developing my skills.

EXPERIENCE

Leewebs

April 2021 - current

Freelance Software Developer and Graphic Designer

I work as a freelancer where I build various products for my clients

- taught the latest and in-demand skills in Web development to my students.
- used coordination and planning skills to achieve results according to schedule.
- did not only unblock my students when they encounter a bottleneck in a timely fashion, but I also ensure to tell them the reason for the error.
- mentored interns

A handful of Tool is used such as Git, Git hub, React Js, Styled-Component, Redux, Bootstrap, SASS, Google Meet, to mention but a few.

Olive Crescent Scholars Montessori School

November 2019 - December 2021

Frontend Trainer

I taught foundation of web development.

- reinforced lessons by tutoring and mentoring individual students or small groups assigned to me
- taught HTML and CSS

A handful of Tool was used such as Sublime Text, Visual Studio Code, Chrome Browser, to mention but a few.
